

DATE: February 23, 2021

To Whom It May Concern:

Patrick Nguyen worked as a full time software engineering co-op student at Terramera for 2 terms beginning in January 2020.

During this time, Patrick worked on many software projects for the research and development division at Terramera. He was able to onboard and contribute towards on-going projects efficiently at the same time as learning new skills and industry processes. Patrick was also able to help plan, implement, and deliver on new projects we had started during his time at Terramera.

He was attentive in meetings, engaged with his work, and always willing to express his ideas during the design and implementation phases of our projects. Patrick was always ready for a challenge but would not shy away from asking questions or troubleshooting tips and ideas.

It is also worth mentioning that Patrick had the opportunity to work in our offices before COVID-19 restrictions were in place and remotely thereafter. He did not let this interfere with his day to day.

I am confident he will make an excellent addition to any organization and I would recommend Patrick without hesitation.

Please feel free to contact me should you require further information.

Sincerely,

Justin Chum
Senior Software Engineer & Team Lead
