

To Whom It May Concern,

It is my pleasure to write this letter of recommendation for Patrick Nguyen, as based on my experience working together with him at LifeBooster I believe he would be a valuable addition to any software development team.

During his time at LifeBooster, Patrick showed initiative to deliver quality code and streamline development processes wherever possible. I was impressed by his consistent effort to automate repeated effort. His flexibility as a full-stack developer also proved incredibly valuable, and he was comfortably able to work on all layers of our stack.

Patrick took full ownership of many features during his time at LifeBooster, and had major contributions at all stages of the agile design process, from design and planning to implementation, to code reviews and retrospectives.

Patrick also was invaluable in creating a fun, welcoming and inclusive workplace at LifeBooster. His sense of humour and creativity enabled him to create a culture at LifeBooster that was a joy to participate in, and which I hope will continue on. He is a strong leader and has an incredible ability to unite a team through laughter.

I am confident in recommending Patrick as a capable developer and all-around team member. If you have any questions, please contact me at jake.wickstrom@lifebooster.ca and I would be happy to expand on my recommendation.

All the best,
Jake Wickstrom
